

# FOCAS Angel Fund

They come in all sizes and ages. Their need is immediate. Thanks to you, our faithful contributors, **FOCAS' Angel Fund** continues to provide extraordinary medical care to shelter animals that would otherwise face permanent disability or euthanasia. The **FOCAS Angel Fund** is the sole source of all but the very basic of medical care for BCAS animals.

Pictured are some of the orphans given renewed health at a cost of \$112,000 in 2007 and nearly \$75,000 as of June 2008. Others just like them await YOUR help. They urgently need your financial donations to the **FOCAS Angel Fund**.

ANGEL FUND
